

Problem-Solution Fit

Date	15 July 2026
Project Name	Strategic Product Placement Analysis
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

The framework below ensures the proposed solution accurately addresses the root causes, behaviors, and limitations of the target audience.

1. CUSTOMER SEGMENT(S) [CS] - Retail Store Managers - Marketing Teams - Data Analysts - Merchandising Planners	6. CUSTOMER LIMITATIONS [CL] - Limited technical knowledge - Large, multi-source datasets - Manual analysis effort	5. AVAILABLE SOLUTIONS [AS] - Pros: Basic sales reports available; historical data accessible - Cons: Static reports, limited visualizations, no interactive analysis
2. PROBLEMS / PAINS [PR] - Difficult to identify which positioning strategy drives sales - Sales, pricing, and demographic data scattered across sources	9. PROBLEM ROOT / CAUSE [RC] No centralized visualization linking placement to sales performance	7. BEHAVIOR + INTENSITY [BE] - Reviews sales reports regularly - Compares placement performance across categories
3. TRIGGERS TO ACT [TR] - Need for data-driven placement decisions - Demand for interactive dashboards - Goal to increase revenue	10. YOUR SOLUTION [SL] Develop a data analytics platform using Tableau to analyze the impact of product positioning on sales, delivering interactive dashboards, category-wise analysis, demographic analysis, and promotion-impact insights.	8. CHANNELS OF BEHAVIOR [CH] - Online: Tableau Public, GitHub Repository - Offline: Project report, presentation
4. EMOTIONS BEFORE / AFTER [EM] - Before: Uncertain, overwhelmed - After: Confident, informed, data-driven
